With 16 topic experts and speakers over two days, the **8th Annual AVAC** will inspire, educate and motivate YOU for a great 2017 and leverage into 2018.

What is AVAC and why should you attend?

AVAC is the premier conference for Virtual Assistants in Australia and the South Pacific.

Over two days and two evenings, this is an exciting opportunity to meet with successful industry veterans, learn from 16 inspiring Australian speakers and network with dozens of delegates to develop your skills and expertise as an industry professional. If you've been curious what it is like to be a full (*or part time*) VA, this is the right event for you.

With increasing market challenges, government intervention and overseas competition to Australian multinational companies, micro businesses and SME's the demand for professional VAs, PAs and EAs is higher than ever before.

Learning, insights and networking are high priorities at all AVAC events. This is why our Conference Master of Ceremonies has been rebooked for our 2017 Melbourne event.

Our MC for the third year in a row is **Rob Salisbury CSP** and well known for keeping events (*and speakers*) on time while delegates and sponsors gain powerful ideas at AVAC.
